

## EHS Internship

This is a paid Internship position that may lead to a full time position.

Mobley Safway - Lexington, KY has a unique **Internship opportunity** for a college student or a graduate student to work alongside our management staff and corporate EHS team. Primarily, we are looking for motivated, energized intern who wants to contribute while working in a team environment. Major responsibilities of an environmental health and safety intern include:

- Working with team members to assist in day-to-day compliance with Federal, State and company regulatory standards and policies.
- Assisting in coordination and preparation of reports;
- Training Presentations and PPT slides;
- Assisting with industrial hygiene (IH) assessments such as:
  - Air monitoring;
  - Dust Samples;
  - Noise surveys.
- Job hazard analysis;
- Site Surveys;
- Conducting regulatory research.

Under the direction of the Branch Manager, the successful candidate would be assigned to one or more of the following initiatives:

- Energy Isolation and Lockout/Tag/Out (LOTO) Program;
- Personal Protective Equipment (PPE);
- Respiratory Protection Program;
- Confined Spaces Program;
- Emergency Response Plan;
- EH&S Training content and communications development to support program updates and EH&S best practices;
- Personal Protective Equipment (PPE) Hazard Assessment development and integration by department, line, position, or activity;
- Job Safety Analyses (JSA's) review
- LOTO procedure review
- Perform facility Confined Spaces evaluation
- Update facility Hazardous Chemical Inventory and Safety Data (SDS) sheets;
- Participation of branch EH&S audit and inspection programs.

### Qualifications:

- Ability to work well in a team environment and collaborate up and down the organization;
- A proven record of accomplishment with a bias for action;
- A passion for learning and a craving to work in a fun culture;
- Proficient in MS Office suite (particularly Excel, Word and Power Point), MS Project;
- Strong analytical and problem solving skills required;
- Current US Citizen
- Valid driver's license

This is a great opportunity for an undergraduate or graduate student enrolled in a degree related too Environmental, Occupational Health and Safety Management.

This position may lead to a full time position upon graduation.
